## WARNING

Failure to use a compatible chemical may void warranty.

### READ ALL INSTRUCTIONS BEFORE USING APPLIANCE

- Do not use bleach, alcohol-based chemicals, chlorine, hypochlorous acid, or hydrogen peroxide.
- Do not use tablets, powder, or abrasive chemicals.
- Do not combine chemicals.
- The RYOBI P2870 and P2890 Electrostatic Sprayers are compatible for use with most water soluble chemicals. For a list of compatible chemicals, please refer to the following Compatible Chemicals List.
- Before using any of the listed cleaning chemicals or garden chemicals, please refer to the chemical manufacturer's SDS sheet for safe use.
- Before using any of the listed cleaning chemicals or garden chemicals, please refer to the chemical manufacturer's master label for approved battery powered and electrostatic sprayer application.
- Please continue to periodically check the list, as it is updated often.
