FARMHOUSE WINE RACK

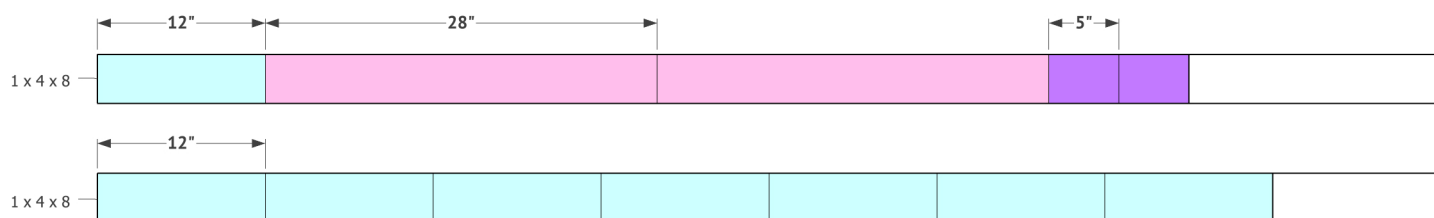

SUPPLY LIST

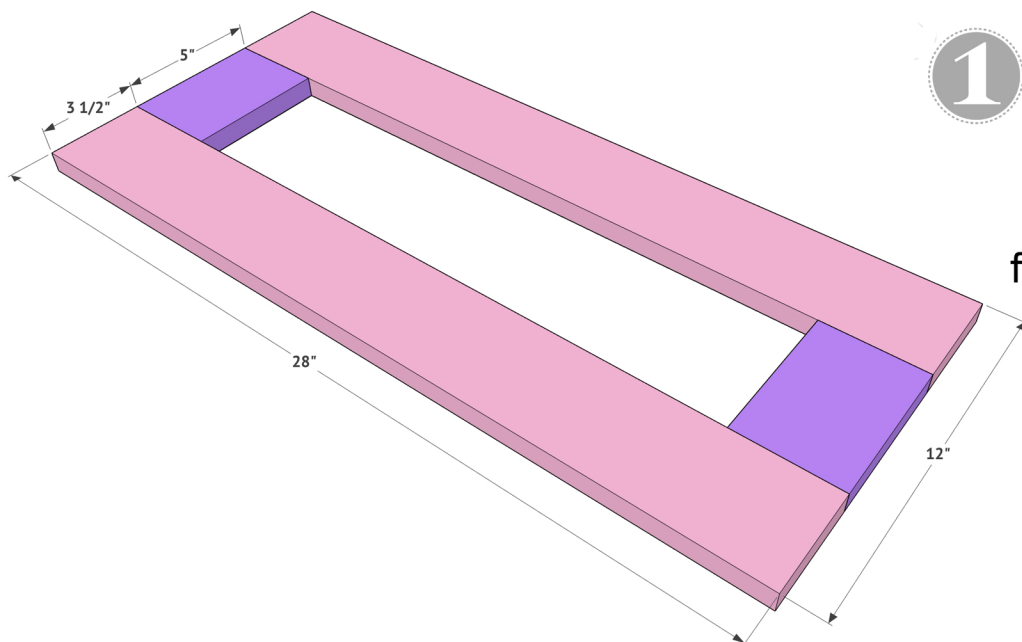

| Item | Quantity | Description |
|----------------|----------|------------------------------|
| 1x4x8 | 2 | pine or whitewood |
| leather strip | | check out the post for links |
| metal hardware | | check out the post for links |

Remember!

Many of these cuts are best made as you go. If you have questions, check out the tutorial on our site!

CUT LIST

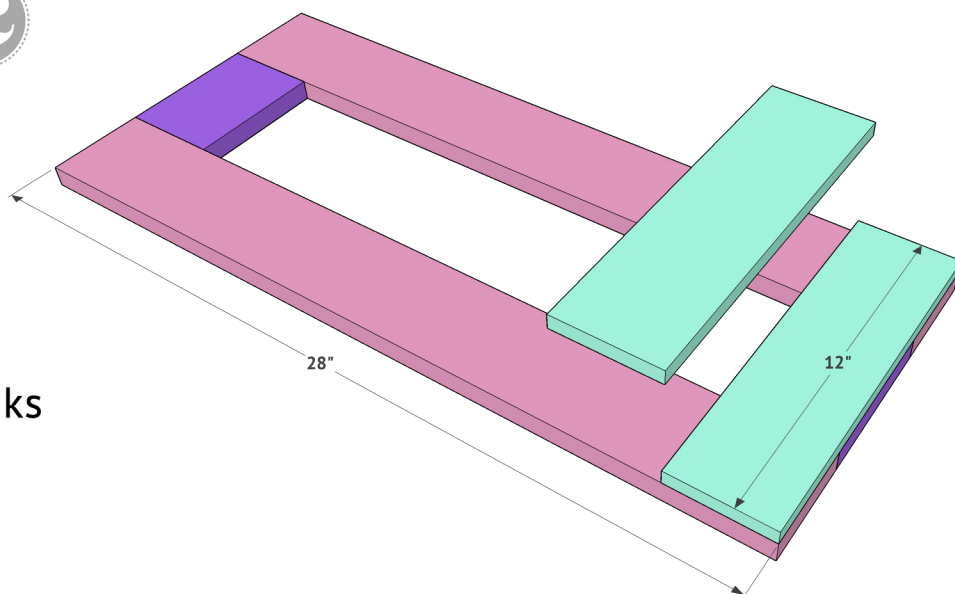

1

Make all of your cuts first. Then, lay out the boards that will form the bottom frame of the wine rack. These won't attach to each other.

2

Now, start attaching each plank. Attach each board flush to each other starting on one end and working your way down. Use wood glue and 1.25" brad nails to attach the planks to the frames.

3

Finish attaching all planks and then you are ready to add the finish! Once you have painted or stained your boards, you can attach the leather and hardware. Refer to the post on how I attached mine!
